

Inference Target Notes

Adapted from the work of Jim Burke.

<http://www.englishcompanion.com/Tools/notemaking.html>

Directions:

Find 6 significant political and/or social developments in US domestic and/or foreign affairs in the two decades that preceded your census. Then in the outer circle, explain how these events, movements, and/or changes might connect to the information you have learned from the census.

Making Inferences: Using the notes from your target, draw some conclusions about how immigration in the Blackstone Valley was related to the events of these two decades in U.S. History.
